3d building projection mappings

selected projects //

A live 3D Building Projection is simply a staggering and awe-inspiring experience to witness. The sheer size of a building coming to life in vibrant colors and motion graphics could be considered an event in its own right. 3D Projection on buildings is the newest and most amazing form of outdoor marketing that could also be considered a long-lasting viral advertising strategy as images and videos from such events are commonly shared on the online social media. 3D Building Projection is our most popular and requested service.

"Today" - Europe's day

Europe Day 2018 was celebrated with Bulgaria's largest 3D mapping show. The performance is about the European cultural heritage from the point of view of "Today's Day" and was screened on the facade of the Council of Ministers in Sofia.

On the occasion of Europe Day – May 9 – for the second consecutive year, residents and guests of the capital were able to enjoy a 3D mapping show. In 2018 the spectacle moves to a new, more impressive place – the building of the Council of Ministers in Sofia. With a screening entitled "Today's Day", which is dedicated to the European Year of Cultural Heritage, we also celebrate the first Bulgarian Presidency of the Council of the European Union.

Organizers are the European Parliament Information Office for Bulgaria and the European Commission in Bulgaria, and official partners – the Bulgarian Presidency of the EU and the Sofia Municipality. Media partner is Bulgarian National Television.

Sofia, Bulgaria 2018 //

Discover Bulgaria

Rome, Italy 2018 //

Cyrillic alphabet takes Rome with a 3D Projection Mapping show. It was projected on the building of the Municipality in the Italian capital, under the music of the latest album of “The Mystery of the Bulgarian Voices”.

The lights of the City of Rome were switched off so that the facade designed by Michelangelo Buñarroti could become a visual screen for the Bulgarian alphabet. The show tells how Bulgarian scripture has helped spread the Christianity among Western Slavs, tells Bulgaria of the air.

▶ watch video

Due to contemporary life dynamics we all get bored very quickly. That's why we are always looking for something new. We like to challenge ourselves and experiment with new ideas, that not only demonstrate graphic excellence, but create one of a kind experience for the audience.

An adventure in the depths of the mind. Our show "Rebirth" is a three minute hypnosis with the sole purpose of freeing the mind of all chains of modern society. A 180 seconds rebirth.

'As I count backwards to zero, you will relax more deeply and go deeper and deeper...'

A vivid graphic journey whispering simple but fundamental truths that help us be free. To Love and believe in yourself. To forget all prejudice and focus on the things that make you smile, rather than the endless struggle for the material. To have the courage to face your fears and become stronger and complete.

A deep voice will guide the audience till all beliefs that prevent us from being happy and free are erased... Until we feel thankful for who we are and confident for what awaits us

'3, 2, 1, 0. Snap. Welcome to your new life. Your mind is now free.'

▶ watch video

Moscow, Russia 2017 //

Europe - your home!

On 9. May we celebrated the Day of Europe.

Sofia, Bulgaria 2017 //

Thousands of people visited Batenberg square to enjoy the audio-visual spectacle, which also marked the 60. anniversary of the European Union and the 10th year of Bulgarian membership. The show was 13 min. long and it was based on the main values of the European Union. VIP guests were the Vice-president, the mayor of Sofia and many ambassadors.

The Battle of Ligny Napoleon's last victory

Ligny, Belgium 2015 //

Impressive military reenactments commemorated 200 years since the last victory of Napoleon and the culmination was the 25-minute 3D mapping SHOW on the beautiful cathedral.

Postcards / Hautmont / France 2015 -2016

Christmas show for the city of Hautmont - The Christmas capital of Northern France. Projection on the big facade of the Abbey of Hautmont.

Mysteres d'Abbaye / Hautmont / France 2014 -2015

Christmas show for the city of Hautmont - The Christmas capital of Northern France. Projection on the big facade of the Abbey of Hautmont.

Reflets dans La Foret Chateau Recogne

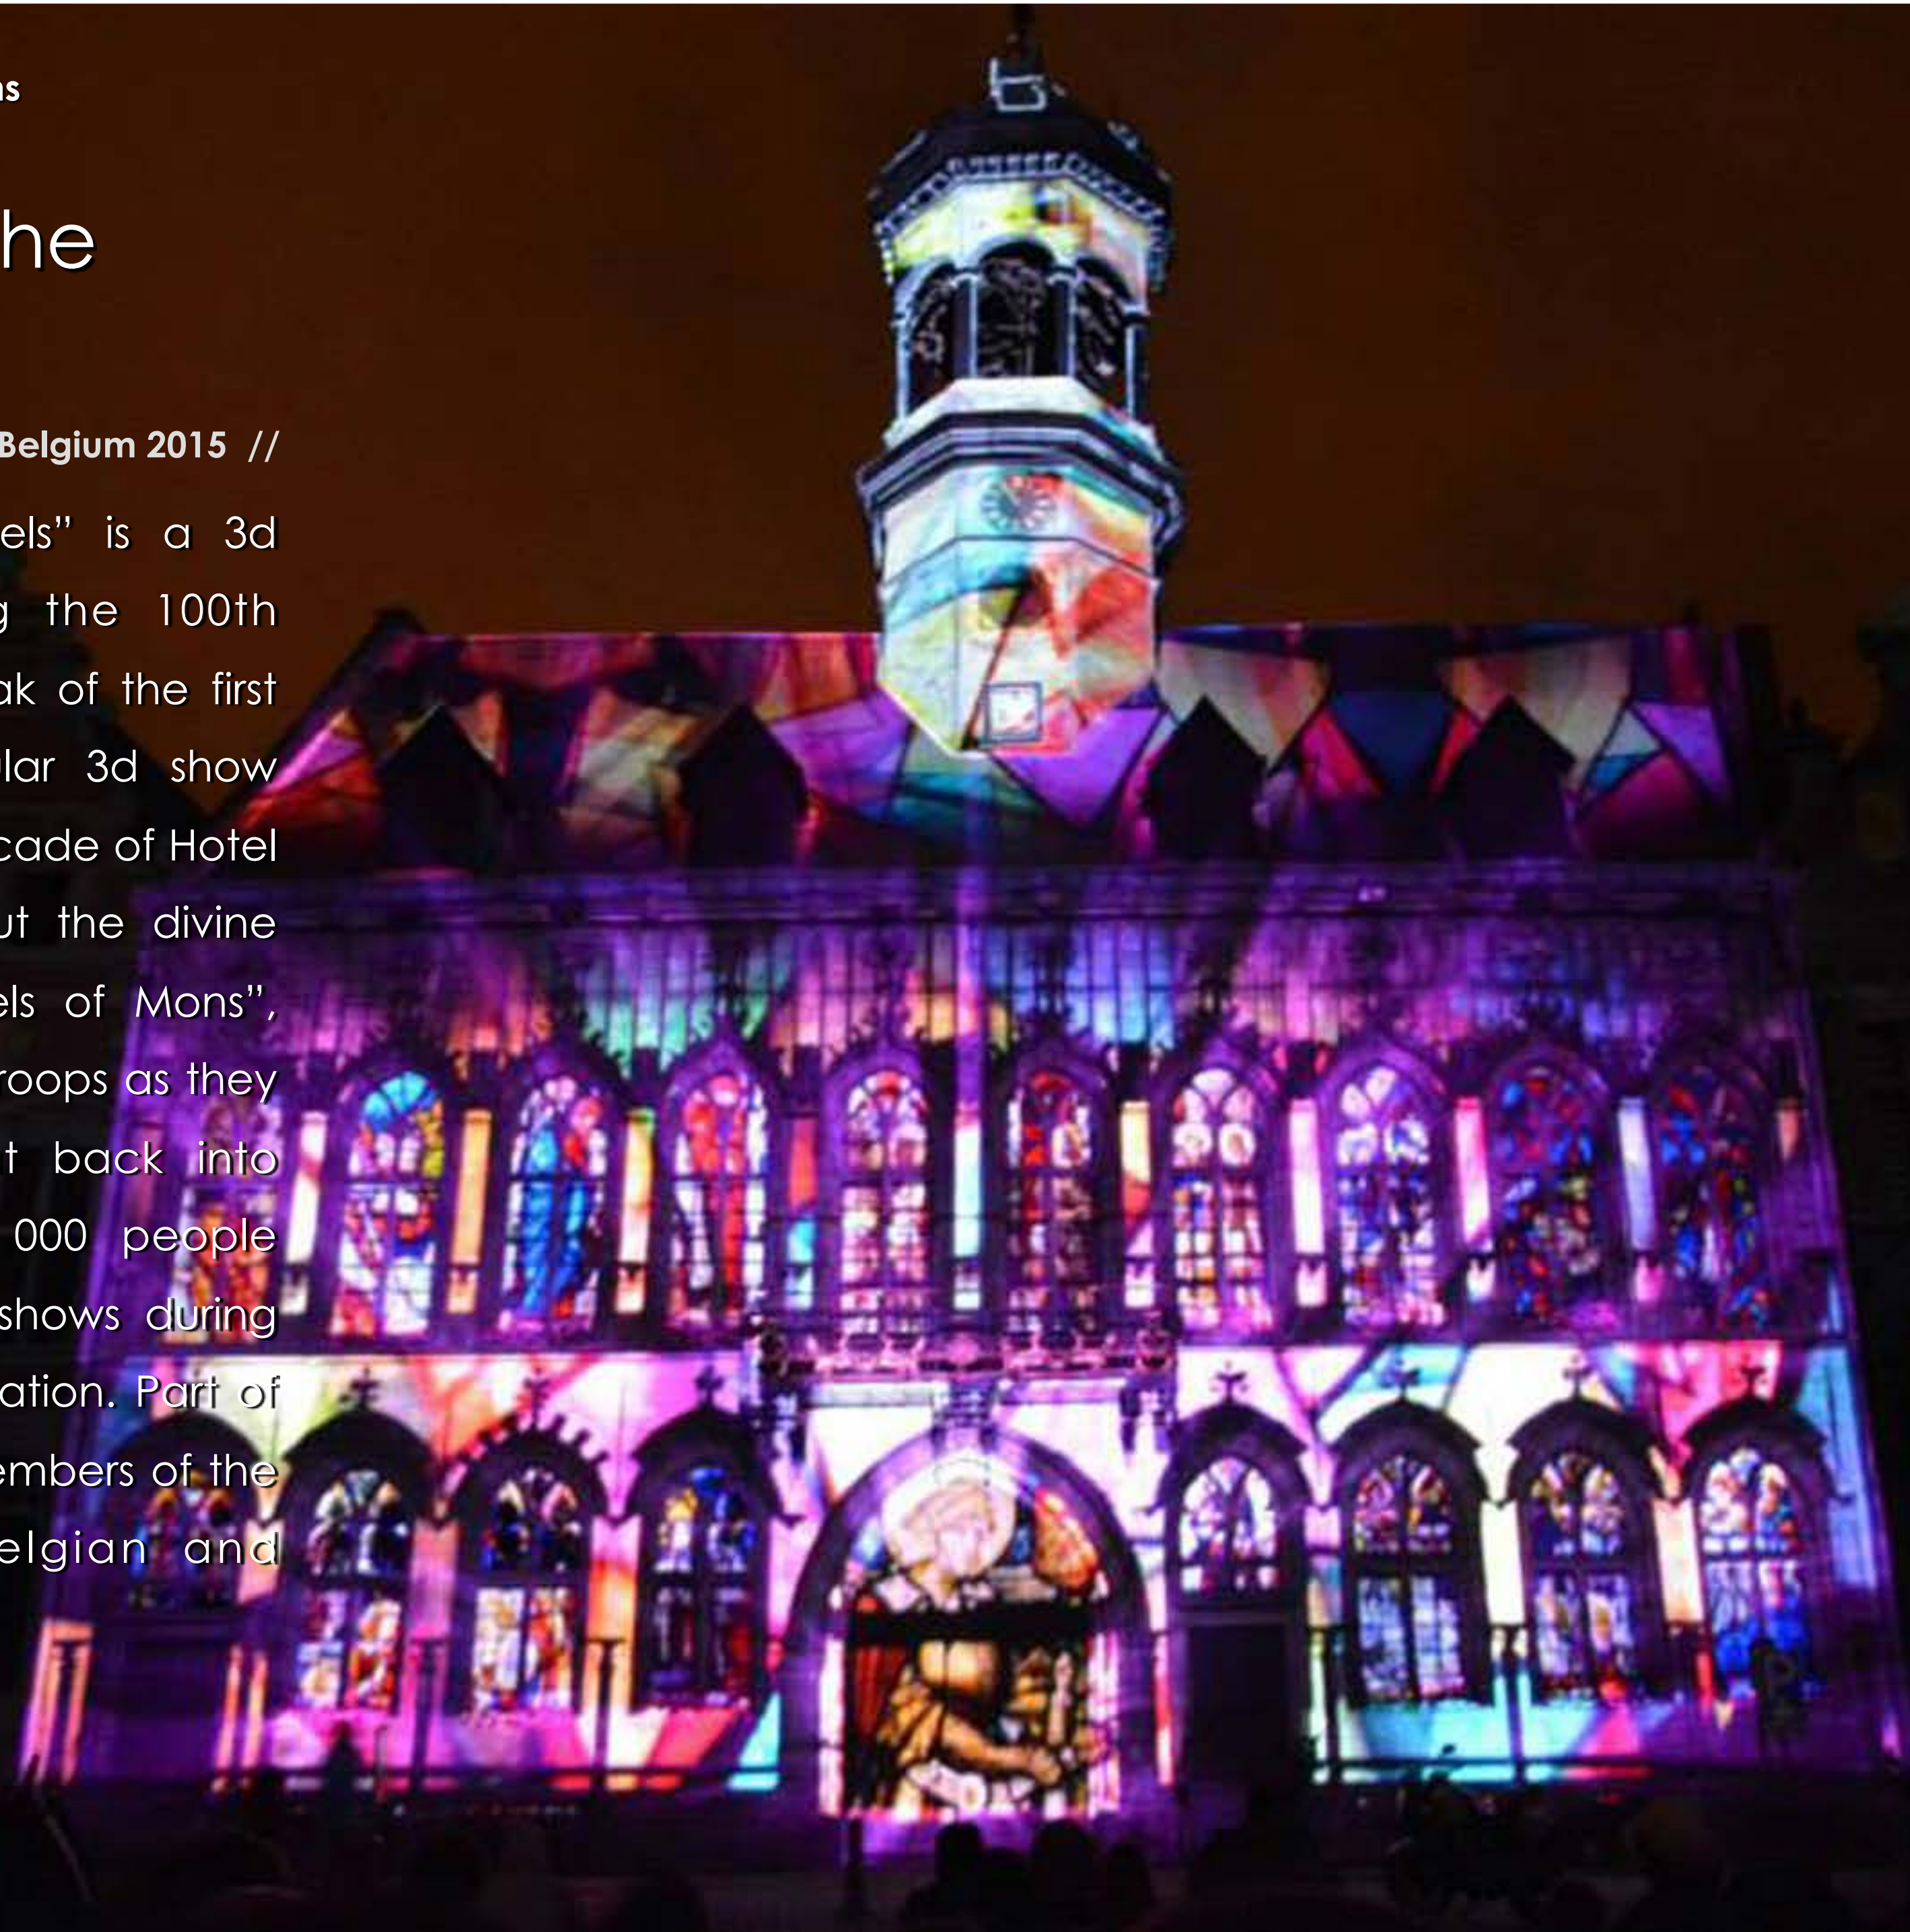

Recogne, Belgium 2014 //

As part of a stimulation for the “slow tourism” in the Forest of Anlier, the castle of Recogne came under the spotlight every evening, from 18 July until 17 August 2014. Four legends in four different seasons were told in a very mystical and beautiful way. We also projected on the nearby trees, the result was amazing. The audience felt like living in a fairy tale.

The legend of the angels of Mons

Mons, Belgium 2015 //

“The legend of the angels” is a 3d mapping show marking the 100th anniversary of the outbreak of the first world war. The spectacular 3d show was on the magnificent facade of Hotel de Ville. It's a story about the divine intervention of the “Angels of Mons”, who protected the British troops as they started their long retreat back into France. More than 100 000 people watched the 30 minutes shows during the one month long installation. Part of the official guests were members of the British royal family, Belgian and European politicians.

Mysteres de la Crypte Abbey Du Val-Dieu

Belgium //

Our 3D mapping show revealed the history of the Abbey and the region in a magical and unique way. Over 70 000 people visited the show during the one month installation.

The first Projection Mapping on a building in Bulgaria and in Eastern Europe.

Over 10 000 watched the spectacular show. The event was part of LG's global marketing campaign for the launch of its new Cinema 3D Smart Tv.

▶ [watch video](#)

Winds of time

Svilengrad //

To mark the day of Svilengrad, MP-STUDIO created the special 3d mapping show “Winds of time”. Following the history of the town from the ancient times till now, key historical events were shown in an abstract and mystical way. The storyteller was the old library.

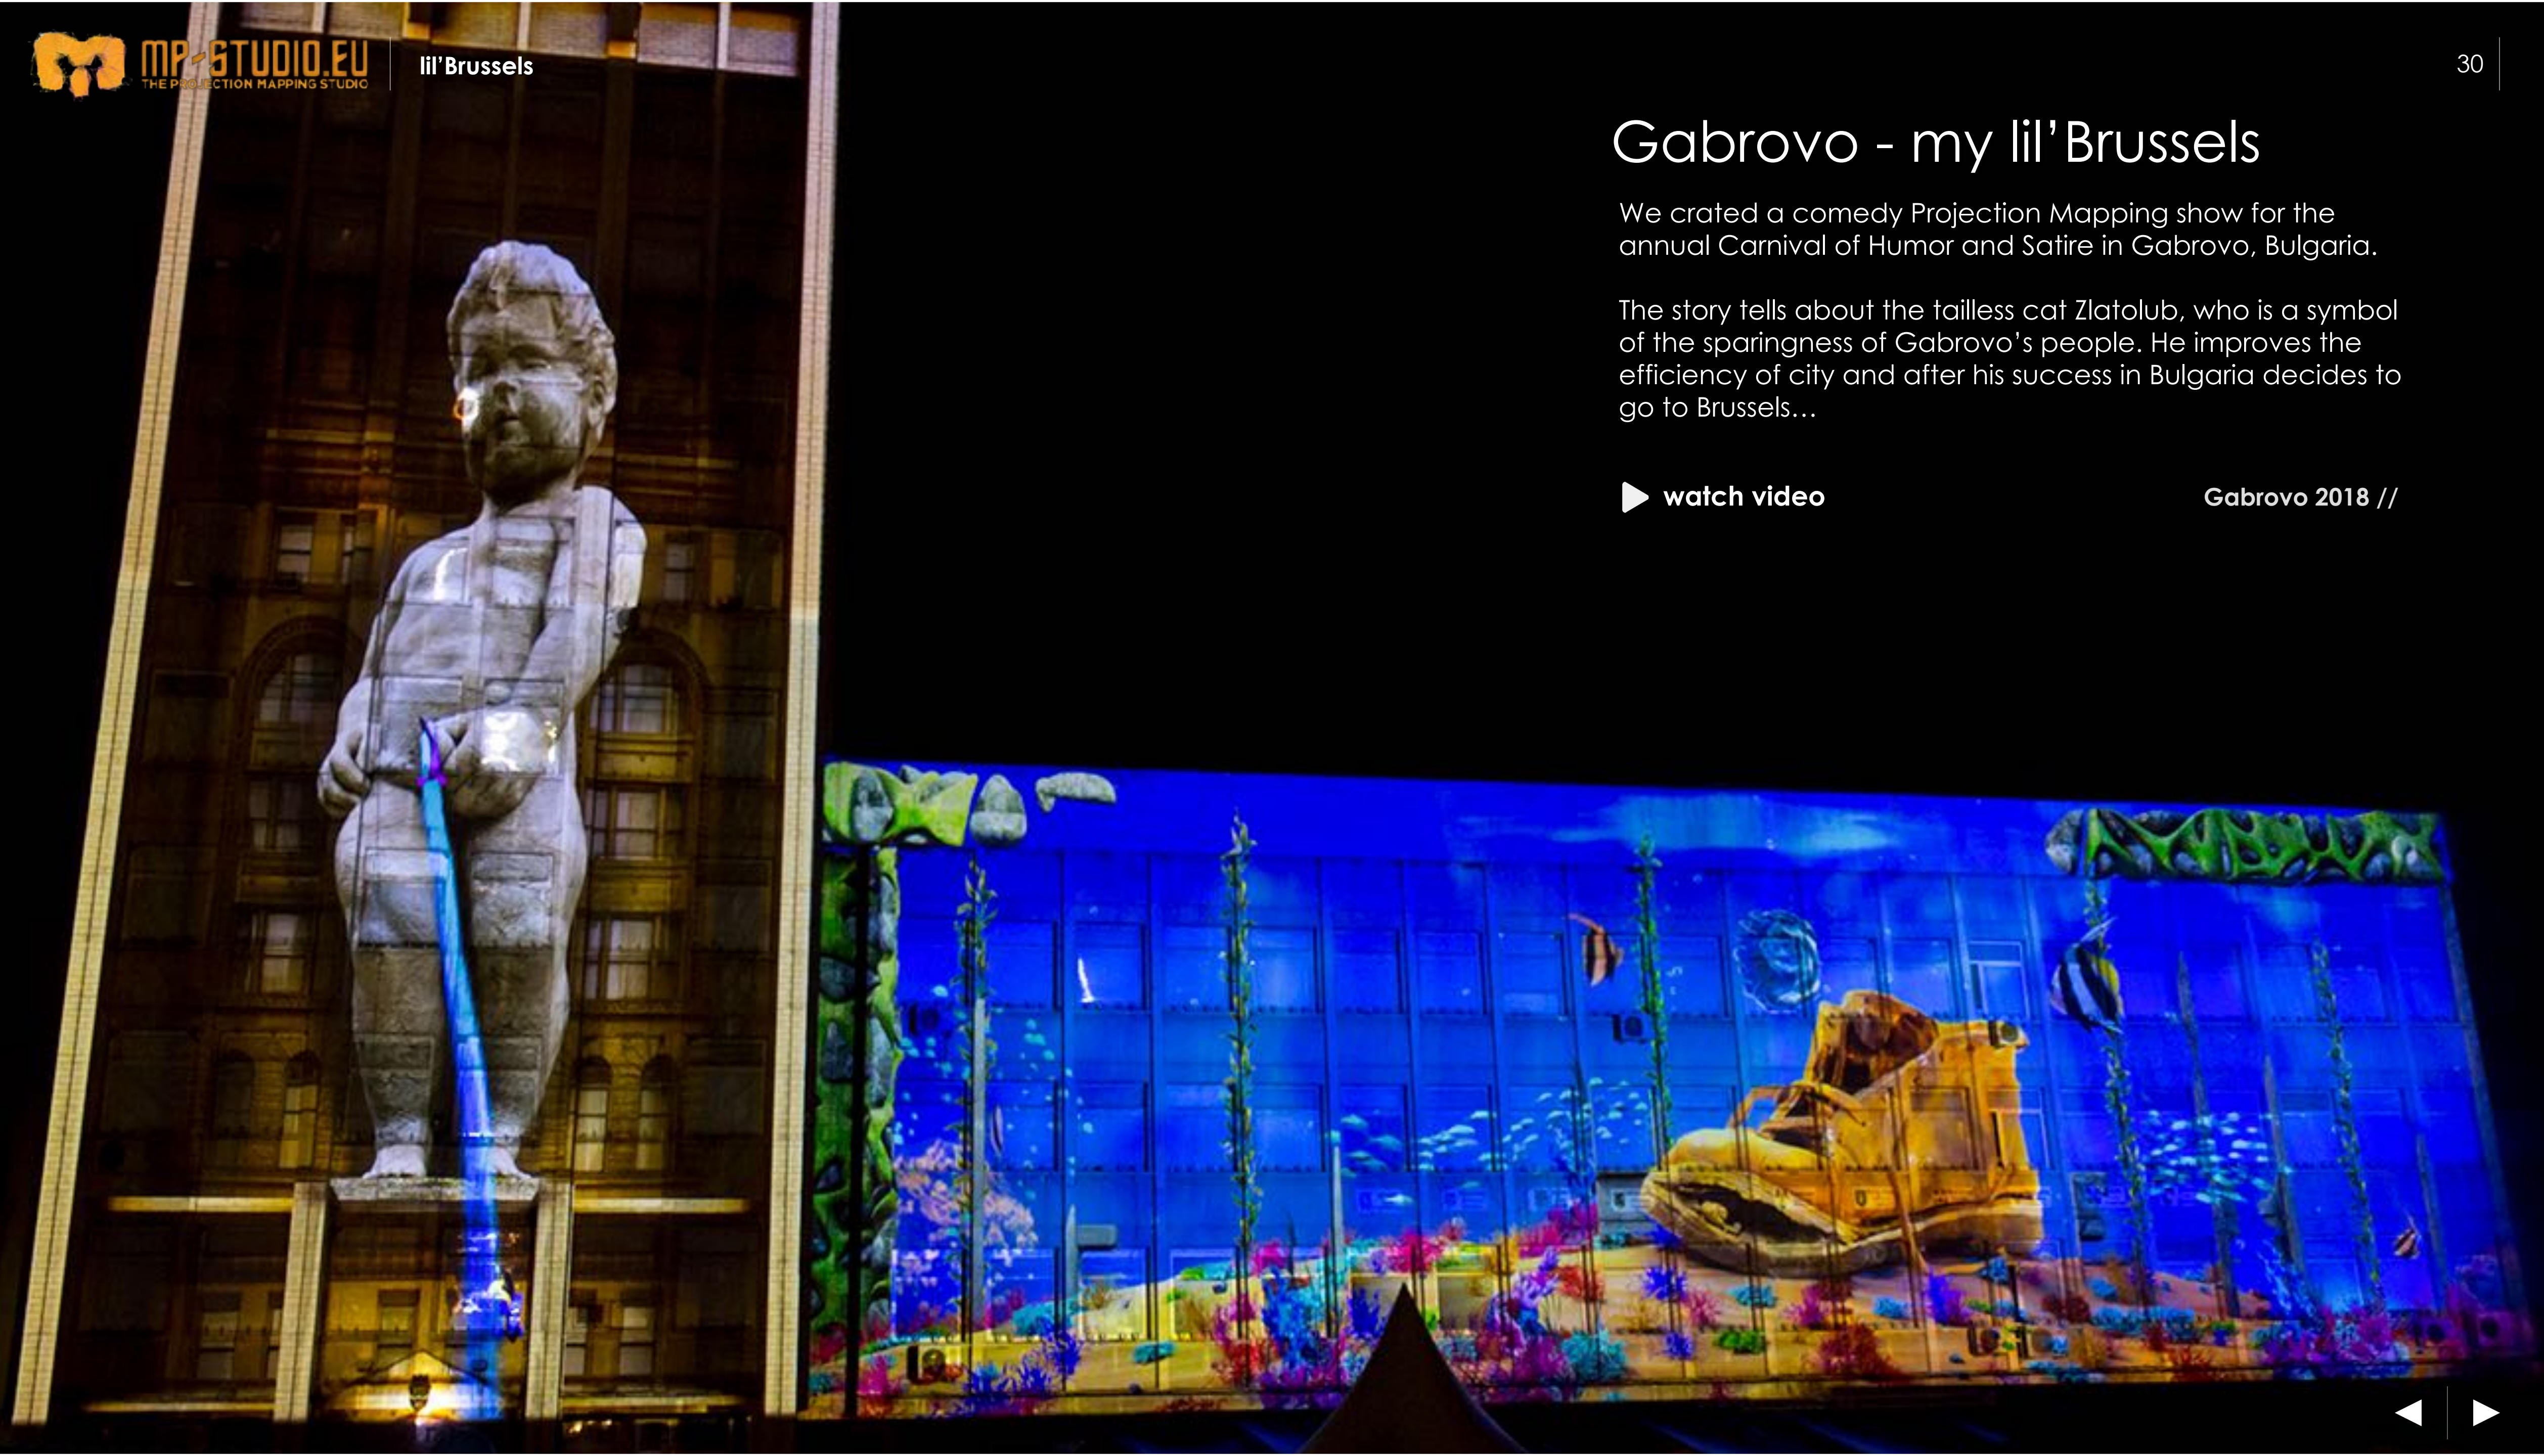

Gabrovo - my lil'Brussels

We crated a comedy Projection Mapping show for the annual Carnival of Humor and Satire in Gabrovo, Bulgaria.

The story tells about the tailless cat Zlatolub, who is a symbol of the sparingness of Gabrovo's people. He improves the efficiency of city and after his success in Bulgaria decides to go to Brussels...

▶ [watch video](#)

Gabrovo 2018 //

3d indoor projection mapping

selected projects //

The possibilities of 3D Projection Mapping have no limits. There is no surface that can not be mapped and projected upon. We have the skillset and the technology to project Your show, promotion or event virtually on any interior. Interior Projection is possible from within cathedrals and churches with most complex structural forms and high level of architectural details to caves with the most inconsistent and the rockiest of surfaces.

3d stage projection mappings

selected projects //

There are so many ways to utilize this amazing technology that it has become an event by its own nature. A live performance can be supported by an ever-changing background to increase the emotional effect on the audience and give more structure to the show. 3D Projection Events can also be incorporated into sport events or even into a firework display. It is an unbelievable way to make any performance exclusive.

interactive shows projection

Interactive 3D Projection is an enjoyment not only for us to create, but also for the performers and the audience. Large scale game recreations, complete interaction with animated characters and even crowd participation, by which the visitors take control over the plot and movements of the visuals. The Interactive 3D Projection brings a whole new experience to the public and involves them in the creation of a new magical world. This is a specialty area, but one that is well worth the added time in planning and conceptualising as the effect is long-lasting and very powerful.

Table projection Amgen

2017 //

On 27.05.2017 Amgen Pharmaceutical held a medical conference in Borovetz, Bulgaria.

For the official dinner after the conference we created a table projection mapping for the official guests.

Table projection Mundo de la Playa

Mundo de la Playa is a restaurant located in Tyre, Lebanon. They have an amazing view to the Mediterranean Sea and it is only logical one of their main dinner courses to be a fish dish. They trusted us to animate their "chef" preparing the dish from scratch – catching the fish, throwing it on the grill and cooking the rest of the ingredients. It is not only a regular cooking, it is a whole adventure.

4D experience video & laser mapping

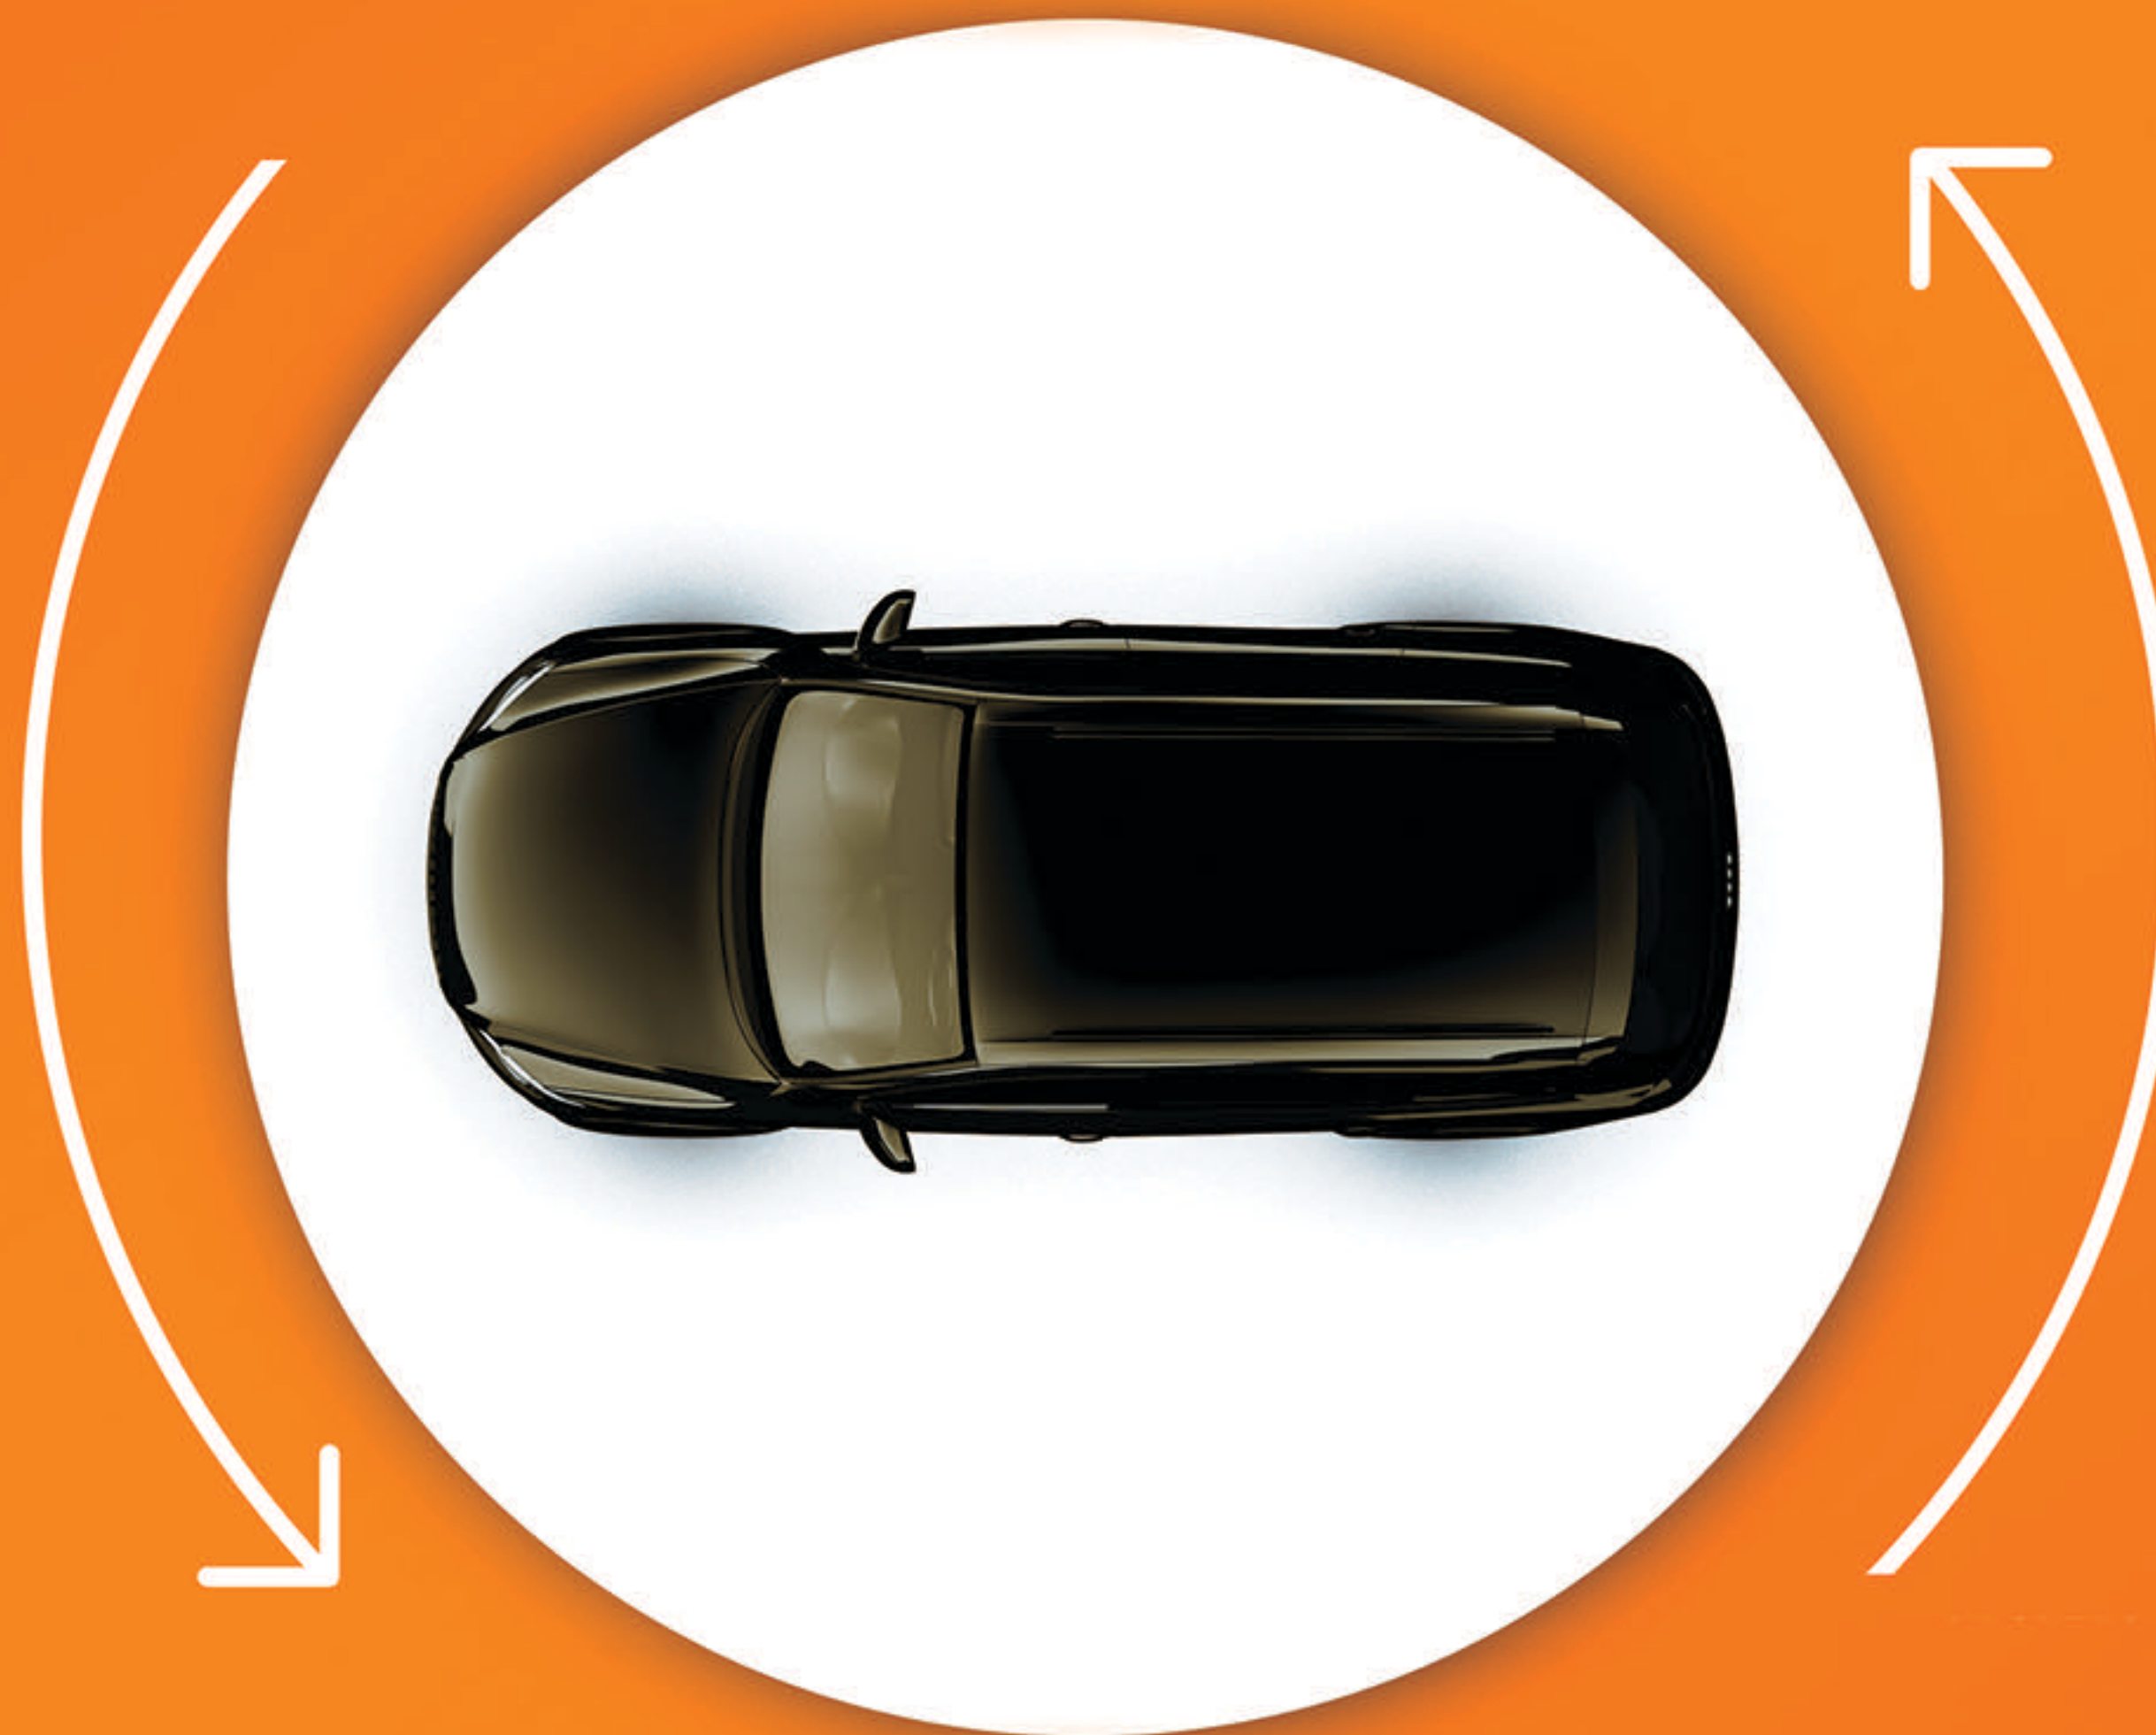

from another dimension //

Of course you are already familiar with the fantastic possibilities of 3D Projection Mapping. This imaginary foundation stone is a guaranty for an unforgettable event in its own right. Since the close collaboration and exclusive partnership with Event Laser GbR, Germany it was clear that there is much room for improvement. So for the first time world-wide, we created a unique symbiosis between exquisite 3D motion graphics and a high-tech laser show.
